## About Crestview Pre-kindergarten

We use Zoophonics to teach letters, sounds, and phonics. This curriculum provides the opportunity to get up and moving while learning. We also use Handwriting Without Tears to teach our preschoolers the best way to form letters and numbers. We learn to write and recognize numbers 1-20 and count to 30 and beyond. Through weekly themes, we learn many science and social studies concepts. We learn Biblical truths as well as the Fruits of the Spirit: love, joy, peace, patience, kindness, gentleness & self control.
